

Werk #14682: Guard Livestatus against Nagios custom variables with an empty value.

Component	Livestatus
Title	Guard Livestatus against Nagios custom variables with an empty value.
Checkmk Edition	Checkmk Raw Edition (CRE)
Checkmk Version	2.2.0i1
Level	Trivial Change
Class	Bug Fix
Compatibility	Compatible - no manual interaction needed

When Nagios is configured with custom variables having an empty value, various Livestatus queries can crash the Nagios core. This has been fixed.

Reported by GitHub user ronansalmon, including a similar fix.
