

Werk #14773: CMC expands custom services attributes for Nagios plugins

Component	cmc
Title	CMC expands custom services attributes for Nagios plugins
Checkmk Edition	Checkmk Enterprise Edition (CEE)
Checkmk Version	2.2.0i1
Level	Trivial Change
Class	New Feature
Compatibility	Compatible - no manual interaction needed

For example, users may now define a custom service attribute "PORT" in the global settings, set a value to this attribute with a rule under "Custom service attributes", and use the corresponding macro "\$_SERVICEPORT\$" under "Integrate Nagios plugins".
