

Copy BI Config to remote site

How to copy your local BI structure to a remote site:

1. You need to copy / move your hosts to the remote site if you want to use them there
2. Copy the bi config
 - a. For Checkmk 1.6

```
# please copy the bi config from target site to the remote site
cp /omd/sites/at/etc/check_mk/multisite.d/wato/bi.mk /omd/sites/bil/etc/check_mk/multisite.d/wato
# please change ownership of the file
chown bil. bi.mk
# please remove the BI Cache directory
rm -r ~/tmp/check_mk/bi_cache
# Reload the site
OMD[bil]:~$ cmk -O
```

- b. For Checkmk 2.0 / 2.1

```
# please copy the bi config from target site to the remote site
cp /omd/sites/at/etc/check_mk/multisite.d/wato/bi_config.bi /omd/sites/bil/etc/check_mk/multisite.d
/wato
# please change ownership of the file
chown bil. bi_config.bi
# please remove the BI Cache directory
rm -r ~/tmp/check_mk/bi_cache
# Reload the site
OMD[bil]:~$ cmk -O
```
