

Werk #14772: Fix crash when deleting custom MIB in EC

Component	WATO
Title	Fix crash when deleting custom MIB in EC
Checkmk Edition	Checkmk Raw Edition (CRE)
Checkmk Version	2.2.0i1
Level	Trivial Change
Class	Bug Fix
Compatibility	Compatible - no manual interaction needed

Attempting to delete a MIB under "SNMP MIBs for trap translation" of the event console would fail and crash with the error

```
TypeError (unsupported operand type(s) for +: 'PosixPath' and 'str')
```

This has been fixed.
